Bureau of Sugar Experiment Stations
Brisbane

THE CANE GROWERS' QUARTERLY BULLETIN

Edited by
NORMAN J. KING

Issued by Direction of
The Sugar Experiment Stations Board

VOLUMES XIII AND XIV

GENERAL INDEX

The Cane Growers' Quarterly Bulletin

VOLUME XIII

Contents

	Page
Some Aspects of the Maintenance of Soil Fertility, by L. G. Vallance	1
The Sugar Experiment Stations Advisory Board	22
Field Day at Mackay Sugar Experiment Station	23
Q.50 as a Standover Cane, by C. G. Story	32
Conference of Cane Pest and Disease Control Boards	33
The South Maroochy Swamp Drainage Scheme, by N. McD. Smith	35
Mackay and Proserpine District Quarantine Area	40
Green Manuring and Soil Organic Matter	42
Bound Copies of Quarterly Bulletins	42
The Treatment of Cane Setts with Mercurial Solutions, by C. G. Hughes and G. A. Christie	43
Recent Varietal History and Seedling Programme for the Mackay District, by J. H. Buzacott	53
Notice to Growers	59
Land Drainage in Mackay Canefields, by C. G. Story	60
Supplies of Sulphate of Ammonia	63
A Simple Fertilizer Distributor for Attachment to a Tractor, by G. Camuglia	64
History of Sugar in the Mackay District, by J. T. Elliott and E. A. Pembroke	66
Irrigation Waters Bulletin	71
What Are Plant Hormones ?, by Norman J. King	72
Progress of "Gammexane" Trials, by G. Wilson	75
Storage of Cowpea Seed	78
Variability and Contamination in "Gammexane" Supplies, by R. W. Mungomery	79
Forecast of Approved Varieties for 1950	80
Review of the 1949 Annual Report of The Director of Sugar Experiment Stations	81

	Page
Sulphate of Ammonia Supplies	88
Irrigation in the Sugar Industry, by Norman J. King	90
Soils and Plant Nutrition, by L. G. Vallance	94
The Quest for Early Maturity, by J. H. Buzacott	109
The Casewell Compaction Roller, by J. T. Elliott	112
Leaf Scald Disease in South Queensland	114
Mechanical Harvesting of Cane in the Bundaberg District, by H. G. Knust	115
Varietal Trial Results—1949 Season, by Norman J. King	123
List of Sugar Cane Varieties Approved for Planting in 1950	131
Reduction in Price of Benzene Hexachloride	134
Varietal Trials :—1949 Season, by Norman J. King	135
Soil Fertility Investigations. Results of the 1949 Season, by L. G. Vallance	154
"Greyback" Grub Control with Benzene Hexachloride, by R. W. Mungomery	160
A Machine for Planting Velvet Beans, by H. G. Knust	164
The Treatment of Cane Setts	166
Bound Copies Cane Growers' Quarterly Bulletin	166
Procedure for Taking Soil Samples	167

VOLUME XIV

Contents

The Effect of the Recent Sugar Agreement with Britain on Queensland Sugar Cane Agriculture, by Norman J. King	1
A New Pathology Plot	3
The Use of Pre-Emergence and Contact Sprays for Weed Control, by L. G. Vallance	4
Legume Inoculum to be Free	10
A Power Spray for Applying Chemical Weedicides, by H. G. Knust	11
A Useful Machine for Spraying Potatoes, by W. G. Steele, Senior Adviser in Agriculture	14
Errata	15
Testing Sugar Cane Varieties for Resistance to Disease, by C. G. Hughes	16
Benzene Hexachloride Distributors, by G. Wilson	20
A Trailer for Cane Haulage, by H. G. Knust	36
Downy Mildew Disease in North Queensland, by C. G. Hughes	39

	Page
The Disease Resistance of Approved Cane Varieties	44
Procedure for Taking Soil Samples	46
The Evolution of the Cane Planter, by Norman J. King	47
The Effect of Variations in Rainfall on C.C.S. in High Rainfall Areas, by L. G. Vallance	55
Sugar Bureau Anniversary Brochure	59
Varietal Changes in the Cairns District, 1933-49, by J. H. Buzacott	60
The Mung Bean	65
Ratooning in the Cairns District, by G. Bates	66
Frenchi Grub Control in North Queensland, by G. Wilson	69
Seedlings for Lower Burdekin Experiment Station	72
The Effect of Soil Applications of Benzene Hexachloride on C.C.S., by G. Wilson	73
The Control of Cane Grubs with Benzene Hexachloride in the Mulgrave District, by P. Volp	76
The Attaining and Maintenance of Soil Fertility in the Tully Area, by Laboratory Staff, Tully Mill	81
The Value of Velvet Beans in the Isis District, by E. J. R. Luckett	86
Forecast of Approved Varieties for 1951	88
Review of 1950 Report of Director of Sugar Experiment Stations	89
A Fertilizer Distributor Adaptation, by N. McD. Smith	97
The International Technologists Meet in Brisbane, by C. G. Hughes	98
Yellow Spot Disease, by C. G. Hughes	103
Use of B.H.C.—Warning to Growers	105
A Tractor Driven Pusher Blade, by N. McD. Smith	106
The Improvement of Soils by the Application of Molasses and Sweet Sorghums, by L. G. Vallance and K. C. Leverington	107
Correspondence Course in Agricultural Science	110
Q.55 in the Bundaberg Area, by O. W. D. Myatt	111
Some Notes on Cane Irrigation, by G. A. Christie	113
The Cultivated and Wild Canes of New Guinea, by Norman J. King	116
List of Varieties of Sugar Cane Approved for Planting in 1951	119
Varietal Deterioration in Queensland, by Norman J. King	122
Varietal Trials—1950 Season, by W. R. Stern	127
Soil Fertility Investigations, by L. G. Vallance	141
Procedure for Taking Soil Samples	147
Disposal of Crop Residues, by H. G. Knust	148
